Лабораторная работа № 3

Управляющие структуры

Старовойтов Е. С.30 ноября 2024

Информация

Докладчик

- Старовойтов Егор Сергеевич
- студент кафедры ТВиК
- Российский университет дружбы народов
- 1032212281@pfur.ru

Вводная часть

Цели и задачи

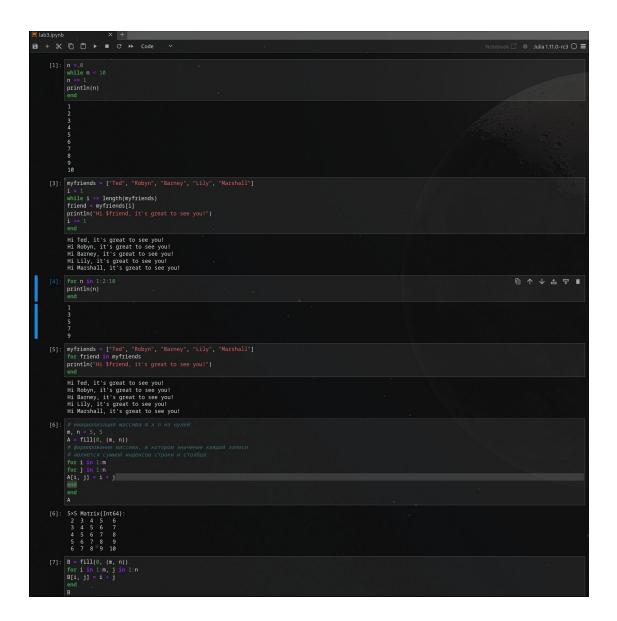

Основная цель работы — освоить применение циклов функций и сторонних для Julia пакетов для решения задач линейной алгебры и работы с матрицами

- 1. Используя Jupyter Lab, повторите примеры из раздела 3.2.
- 2. Выполните задания для самостоятельной работы (раздел 3.4).

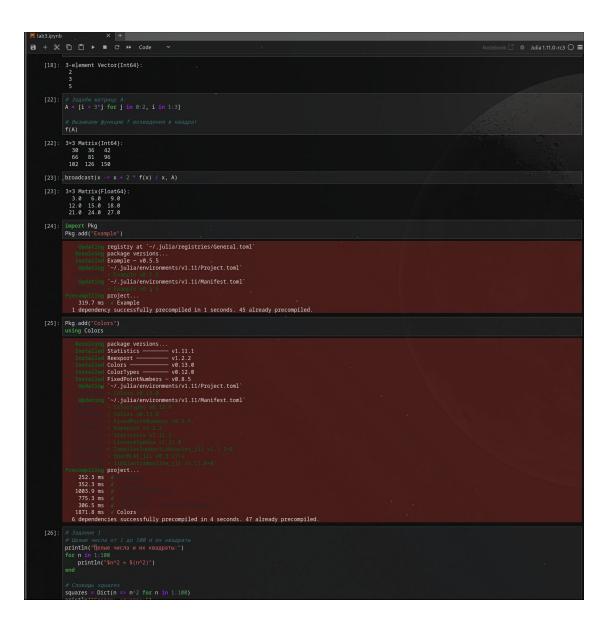

Результаты

Поставленные боевые задачи были выполнены, все цели достигнуты.

Выполнение лабораторной работы

5 системы линейных уравнений:
1999999999987, 2.9999999999996, 4.99999999999, 2.000000000000001, -4.0]
```

Выводы

Я освоил применение циклов функций и сторонних для Julia пакетов для решения задач линейной алгебры и работы с матрицами.
